

ekgaon positions announcement

ekgaon provides opportunity to young and dynamic professionals to identify their potential for bringing change while being globally competitive. We are currently looking to build our team in New Delhi Office. The positions available are as under. For details on positions please check our website <http://www.ekgaon.com/jobs/>

ekgaon technologies

ekgaon is a leading Information and Communication Technology (ICT) and management services company working towards providing technology, systems solutions and management support for knowledge management, strategic decision making and business development. In line with its mission **ekgaon** has been working over several years across South Asia with development stakeholders and partnering on projects for enabling development process and building communication and information systems for increasing efficiency of business enterprises and value chain process, enabling information flow and delivering financial services, technology solutions and strategic consulting. **ekgaon** head office is based in New Delhi India and regional offices in South (Madurai, Tamil Nadu) and East (Kolkata, West Bengal) India. **ekgaon** is dedicated to provide appropriate and affordable solutions for developing communities and business.

ekgaon in partnership with Community Enterprise Forum International (CEFI) has formed a consortium viz. Community Enterprise Consortium (CEC) for enabling support for rural enterprises to build economies of scale by efficiently using ICTs and building management systems centered around primary producer communities. Currently, CEC is engaged in building capacities of primary producers across the region. CEC has taken up development of capacities and enabling supply chains and producers owned enterprises in identified sectors such as medicinal, aromatic & dye plants, microfinance, ICT enabled services, fisheries, community based tourism & green energy.

Why we are Innovative

ekgaon believes in innovation; doing things differently by creating new roadmaps in areas un-reached using technology has been our strength. We have created global visibility for our innovative work in microfinance sector, which include; developing color coded paper based Management Information Systems for Self Help Groups (SHGs) which has been also awarded by International Development programme, SEEP, USAID in year 2003 (now available free to all from our website). Our Mobile based technology (CAM) for recording, storing and transferring data has won prestigious **PANAsia ICT RnD Award** for year **2005**. **ekgaon** has many firsts to its list – it innovated first of its kind multilingual technology applications in development sector in India. Our work is based on principles of open source and creative common licensing.

ekgaon co-founder and Director, Tapan S Parikh has been awarded 2007 **Humanitarian of the Year Award** by **Technology Review 2007** Young Innovator Award (under 35), USA. The prestigious award is shared by leading technology innovator all cross the world including Larry Page and Sergey Brin (Google Founders), Sabeer Bhatia (Hotmail fame) and Mark Zuckerberg (Developer of Social Networking phenomenon Facebook), amongst others.

ekgaon's project “**Enabling financial inclusion and increasing efficiency of Self Help Groups Microcredit Federations**”, has been awarded the first Stockholm Challenge GKP awards 2007 in the Economic Development category. The winners were selected amongst nine finalists chosen by an international jury as the best examples of the role of Multi-Stakeholder Partnerships in Information and Communication Technologies (ICT) for Development.

Our Track Record

ekgaon has been working with Companies, Government, Non Government organisations, Community Based organisations, Universities, banks and other commercial organisations at local, national and global levels providing products and services ranging from technology solutions, enterprise development frameworks, setting up helplines, communication information assessments, market surveys, webportals, multilingual database management systems, mobile technologies, communications systems development etc.

ekgaon is one of the founder members of emerging market consortium MAPSCON; that is first of its kind in South Asia. We had been founding members of Indic-Computing consortium, working on Indic language development for computers enabling access to computing in mother tongue. We have been recognised by institutions such as Reserve Bank of India (RBI), NABARD, India for our innovations in the banking sector.
